ARC 360

REVOLUTIONARY BIOLOGICAL
POWDER THAT **OPTIMISES YOUR
STEAM PEAK PERFORMANCE**

ARC 360

Supplied in 5L containers, ARC 360 is an advanced alternative to conventional acids, designed for manual and cleaning in place (CIP) descaling operations. Our innovative formula combines effective descaling technology with a powerful bio-based degreaser and corrosion inhibitor, ensuring:

Comprehensive Cleaning:

Effectively cleans and descales black water systems, vacuum system pipework, and various on-board process equipment such as plate heat exchangers, evaporators, and coolers.

Enhanced Safety:

Free from bleach, ammonia, phosphate, and solvents, ARC 360 is safer to handle at sea than concentrated mineral acids and is not classified as harmful to the environment.

Corrosion Protection:

Contains a corrosion inhibitor optimized to protect exposed metal surfaces, welds, and joints, ensuring enhanced asset protection.

Environmental Safety:

100% biodegradable, ARC 360 breaks down into natural compounds that are safe for the environment and compatible with various materials such as stainless steel, galvanized metals, and aluminum.

All-in-One Solution: ARC 360 provides everything you need for optimal descaling and degreasing, eliminating the need for multiple products. Used by leading maritime companies worldwide, ARC 360 is the proven solution for reliable and effective maintenance of black water systems and process equipment.

PACKING DETAILS

Size: 4x5L

Product Code: 80001-20
